## HIGHWAY IMPROVEMENT

TO HOLD CONGRESS AT FAIR

The Leading Good Roads Associations  
of the United States to Meet at  
Panama-Pacific Exposition.

Preliminary plans have been completed for what promises to be the largest gathering of good roads advocates ever held. This meeting will be held at the Panama-Pacific International exposition and will be known as the Pan-American road congress. It will be under the joint auspices of the American Road Builders' association and the American Highway association. The tentative date selected is that of the week of September 6.

The plans for the congress will be handled by an executive committee of five. This committee is made up of Gov. Charles W. Gates of Vermont, chairman; W. W. Crosby, former state highway engineer of Maryland, and E. L. Powers, editor of Good Roads, representing the American Road Builders' association, and James H. MacDonald, former state highway commissioner of Connecticut, and J. E. Pennybacker, chief of division of economics, United States office of public roads, representing the American Highway association.

At the meeting held in Montpelier, Vt., on March 18, Governor Gates was elected the fifth member and chairman of the committee. In order to facilitate its work the committee has appointed the same among four sub-committees, as follows: Finance, James H. MacDonald; program, W. W. Crosby; publicity, E. L. Powers, and arrangements, J. E. Pennybacker.

It is expected that this meeting will bring together not only official representatives from every state but also from the Canadian provinces and many of the South American countries. Official invitations will soon be issued to the governors of the several states to appoint delegates.

The members of the committee have been working for some months in making preparations for this meeting, and great interest has been shown in the work by those identified with highway improvement. The co-operation of other good roads organizations, the railroads and others, is promised, with the result that it is expected that the meeting will mark a mile stone in the propaganda for good roads.

The organization under whose auspices the joint congress will be held are known as the two leading good roads associations of the United States. Both associations during the last few years have held successful congresses independently, but this year it was felt, in view of the Panama-Pacific International exposition, that it would best serve the interests

Road Near Riverside, Cal.

of all good roads advocates concerned to hold a joint congress during the exposition.

Both organizations are requested by two members on the executive committee, the fifth member having been elected by the other four. The selection of Governor Gates as the fifth member is felt to be peculiarly fortunate, not only on account of his official position and his ability and fairness, but because of the fact that he, for ten years or more, was the state highway commissioner of Vermont, and it was due to his record in this office that he was elected governor by one of the largest majorities ever given a governor in that state.

This election to the governorship is one of the highest tributes ever paid to a road builder, and so far as known is the first instance on record of such recognition.

Identified.

The men who give the excuse that they don't care anything about an automobile, but are buying to please their wives, are perhaps the same ones who borrow a boy to take to the circus.—South Bend News-Tribune.

This Porch Costs \$18

TWO cleats against the side of the house and two long posts support this simple, open air sleeping porch. It has a canvas top, and canvas sides on rollers so that drafts may be avoided. Inside there is sufficient room for a bed and chair. The window was cut down to the floor and made into a door. This is a good, cheap sleeping porch for a consumptive. Healthy people can make themselves healthier by open air sleeping. Try it.

Coffee grows wild in German East Africa.

A Good Household Salve

Ordinary ailments and injuries are not of themselves serious, but infection or low vitality may make them dangerous. Don't neglect a cut, sore, bruise or hurt because it's small. Blood Poison has resulted from a pin-prick or scratch. For all such ailments Bucklen's Arnica Salve is excellent. It protects and heal the hurt; is antiseptic, kills infection and prevents dangerous complications. Good for all Skin Blemishes, Pimples, Salt Rheum, Eczema. Get an original 2 ounce 25c. box from your drugist—Advertisement.

Generally an Easy Matter.  
Even if we have had no love for the distant deceased relative we can often put up a strenuous fight to get a bit of his property.

Effective Motor Fuel.  
Heavy petroleum oils, such as kerosene, are made available as motor fuel by the addition of substances supplying much oxygen, such oxidizing material being either dissolved in the oil or sprayed into the air inlet of the carburetor. Petroleum mixed with 3 per cent of hydrogen peroxide is but slightly changed in color, density, or flash-point, according to G. B. Seldon, but as motor fuel is so transformed that it burns perfectly clean and without odor. It gives, moreover, an increase of power. Peroxy acid and various nitrated compounds have proved effective oxidizing agents; and 3 per cent of naphthalene picrate with the oil is said to have more than doubled the engine's power.
